

# Tune-R-B

## Description

Tune-R-B is a control damper for round ducts with plastic manual controller and low tightness class (A-casing, 1-blade). It is used for regulating air volume in the duct system. The special construction makes it easy to fix the air volume in the required position without having to use any other tool. Tune-R-B is available in a diameter from 100 to 315 mm.

The maximum allowed temperature is 80°C.  
The maximum duct pressure is 500 Pa.

For shut off damper or a damper with higher tightness class please see the Tune-R catalogue.

## Design

The damper is manufactured from galvanized steel sheet. Plastic bushings are from a PPO material.

The damper can be manufactured from stainless steel A-304 or A-316 if necessary.

## Ordering code

### Tune-R-100-B

100 - Dimension

A-304 or A-316 stainless steel as optional extra

## Dimensions

Size	Art. No	L	Weight
DN		mm	kg
100	311900	200	0,5
125	311901		0,6
140	B503		0,7
160	311902		0,8
180	B503		0,9
200	311903		1
250	311904		1,3
280	B503	300	1,9
315	311905		2,2
